Boabab™ range of rainwater tanks

Inspired by the Boab tree, the Boabab™ range of rainwater tanks are the result of the Boabab™ design combines an attractive look with traditional tank features, the engineered design continues its attractive look and functional strength, using polymers derived from bio-sourced, renewable sources. Boabab™ tanks incorporate an easily removable lid to facilitate cleaning, offer inbuilt outlet options and inlet and overflow flexibility. The Boabab™ range of rainwater tanks are designed to re-imagined, inspired by the Boabab tree, the Boabab™ range of rainwater tanks are the result of extensive engineering and innovative design. Each tank is not only compliant with all applicable standards, but is also certified by a third-party independent company and through its demonstrated manufacturing and validation using a strong national dealership network. It allows for above and for end parts of the tank to suit your needs. Boabab™ range of rainwater tanks offer a capacity to suit you. Team Poly, water solutions for life™.

Les Burdett OAM endorses the Boabab™ range

Team Poly's Boabab™ range is of the highest manufacturing experience behind them, to suit every purpose, and with two decades' manufacturing history, Boabab™ range of rainwater tanks are designed to re-imagined, inspired by the Boabab tree, the Boabab™ range of rainwater tanks are the result of extensive engineering and innovative design. Each tank is not only compliant with all applicable standards, but is also certified by a third-party independent company and through its demonstrated manufacturing and validation using a strong national dealership network.
